Lumen, burn time and light distance are measured according to the ANSI FLI STANDARD

- Lumen values are measured 30 seconds after switching the headlamp on.
- Burn time is measured from power-on, until lumen output reaches 10% of start value.
- Light distance is defined as the distance at which the light beam measures 0.25 lux.

Spectra O is a trailblazing headlamp that turns night into day, delivering an incredibly strong light of 10 000 lumen. The headlamp consists of 8 LED lights, packaged into a sleek, intuitive design accompanied by a powerful 98 Wh battery.

Spectra O (Orienteering) is specifically designed for night orienteering and comes with optimal accessories such as a remote-control kit and a head mount.

FEATURES

- 10 000 Lumen output
- 8 LEDs
- 5 Light modes ranging from 80 to 10 000 Lumen
- SILVA intelligent light a unique combination of a long reach spotlight and a close flood light
- Weight 238 g
- · IPX5 water protection
- · Helmet mount with optimal weight distribution
- Extention cable for the battery
- · Water resistant both headlamp and battery meets IPX5 standard
- Remote control kit control the light from your wrist
- Bar mount with battery holder for the bike frame
- · 98 Wh battery

ART NO: 38131

- 14,8V
- 6,6Ah
- 98Wh
- Battery indicator when starting the lamp. New voltage -New connector

Spectra Battery 96 Wh is the most powerful battery from Silva, and it fits the Spectra Headlamp-series. It has a battery level indicator displayed 30 seconds after you turn on the headlamp, and during charging, and it is waterproof according to IPX5-classification.

- Compatible with the Spectra headlamp-series
- Waterproof according to IPX5-standard
- A battery level indication displays 30 seconds after you turn on the headlmap & during charging
- Charge with Spectra Battery Charger (sold separately)
- Store in Spectra Battery Sleeve or Battery Harness during activities (sold separately)
- Additional accessories: Spectra Extension Cable & Spectra Double Battery Connector (sold separately)

SPECTRA DOUBLE BATTERY CONNECTOR

ART NO 38130

ART NO: 38130

Spectra Double Battery Connector is a parallel adapter that turns two Spectra batteries into one, giving you twice the burn time. You can get more action hours without having to stop to switch or charge batteries.

- Allows you to connect two batteries to the SPECTRA lamphead giving 2h of burn time at 10000lm.
- Each battery will indicate charging status separatly and remote will show total battery power.
- Custom SPECTRA connectors

SPECTRA EXTENSION CABLE

ART NO 38108

ART NO: 38108

Spectra Extension Cable gives you 90 cm extra cable length between the Spectra lamp unit and the battery, allowing you to place the battery where you want it.

- 90 cm additional cable length
- Custom SPECTRA connectors

SPECTRA GO-PRO MOUNT

ART NO 38136

ART NO: 38136

Spectra GoPro Mount makes your Spectra headlamp compatible with GoPro camera mounts. Attach the bracket to the GoPro camera mount with a GoPro thumb screw.

- Makes Sectra headlamp compatible with GoPro mounts
- Simply attach to GoPro camera mount with GoPro thumb screw
- GoPro camera mount & thumb screw not included
- Glass Fibre reinforced Nylon for durability

SPECTRA BAR MOUNT

ART NO 38104

ART NO: 38104

Spectra Bar Mount Kit allows you to mount Spectra Headlamp and Spectra Remote Control on to a handlebar. The kit includes a robust bracket for the lamp unit and a flexible bracket for the remote control.

- Mount kit for mounting Spectra lamp unit & remote control on to handlebars
- 2 attachments included
- Robust lamp bracket for handlebars with dimensions 31.8-35 mm
- Flexible remote control bracket for handlebars or poles with dimensions 22-35 mm
- Glass Fibre reinforced Nylon for durability
- TX screws for fastening
- Battery frame bag for mounting of one or two batteries on the bike frame
- Remote control holder

SPECTRA HELMET MOUNT

ART NO 38135

ART NO: 38135

Spectra Helmet Mount is custom made for securely mounting your Spectra headlamp on to your helmet, with either the included adhesive tape, or the straps and rubber pad. The helmet mount is made to fit most helmet types.

- Attachment to mount Spectra on helmets
- 2 possible mounting options
- Adhesive 3M tape included
- Attachment straps included
- Friction rubber pad included
- Fits most helmet types

SPECTRA HEAD MOUNT

ART NO 38151

ART NO: 38151

Spectra Head Mount is a comfortable headband designed to keep your Spectra headlamp in place during fast-paced activities such as orienteering or trail running.

- Headband for Spectra
- Soft neoprene fabric for comfortable fit & weight distribution
- Ergonomic fit with 5 adjustment points ventilation holes
- Adjustment points on top, in the back, & on the sides
- 2 cable loops for battery cable
- Washable (hand wash)

SPECTRA BATTERY CARRIER

ART NO 38107

ART NO: 38107

Spectra Battery Harness is an ergonomic and lightweight vest to carry your Spectra battery during fast-paced activities. It has a big back pocket for 1-2 batteries, 2 mesh pockets in the front, and compression straps to fixate your gear or to add extra packing space. The flexible adjustment straps guarantee optimal weight distribution and allows you to focus on the activity without even noticing the battery on your back.

- Compatible with Spectra Battery 96 Wh
- Lightweight & ergonomic with flexible adjustment straps
- 7-point adjustment
- Battery pocket for 1 or 2 batteries
- 2 mesh pockets
- Compression straps
- Duraflex buckles
- Weight: 170 g
- Washable (handwash only)

SPECTRA STORAGE CASE

ART NO 38109

ART NO: 38109

Store your headlamp, batteries and accessories in this protective and durable storage bag, padded with foam and with mesh pockets.

- Suited for Orienteering kit (Compass, electronic punching cards, Description holders.
- Made from durable nylon
- Movable compartments
- Mesh pockets on the inside
- Attachment loops on the outside

TRAIL RUNNER FREE - FREE THE ENERGY

The world's first seamless headlamp experience.

On this fifth generation of our original running headlamp, we present a new kind of technology where the power is fully integrated. We call it Free Technology - a comfortable headlamp experience without distracting cords. No hassle - Just free the energy.

THE DESIGN STORY BEHIND: TRAIL RUNNER FREE

WHAT

 The world's first seamless headlamp experience: a new kind of headlamp - free from distracting cables, more lightweight, comfortable and versatile, but still with a clear focus: Running.

WHY

 We wanted to create the world's first seamless headlamp experience - to let the user feel more free and focus on the exercise instead of the gear.

WHO

 We designed Trail Runner Free for everyone who loves running. This lamp should be a running headlamp in every aspect. With features based on a runner's needs.

WHEN

It will light up your trail anytime - during the evening or all night long.
 For a short run in the city or ultra long trail running. When rain is pouring down, in snow, mud or dirt - you can use it whenever..

KEY FUNCTIONS / KEY DESIGN ELEMENTS

- Free Technology a comfortable headlamp experience without distracting cords.
- Hybrid battery case: can carry either a rechargeable pack or AAA.
 Integrated red rear safety light. Grip friendly surfaces.
- Flat, soft textile extension cord.
- Intelligent light

WE PUT A LOT OF EFFORT INTO

EVERY DETAIL

TRAIL RUNNER FREE ULTRA

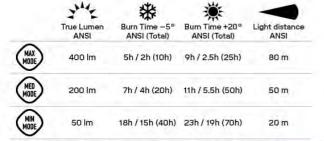

ART, NO. 37807

technology

Lumen, burntime and light distance are measured according to the ANSI FL1 STANDARD

- · Lumen values are measured 30 seconds after switching the headlamp on.
- Burn time is measured from power-on, until lumen output reaches 10% of start value. (Total burn time is the actual burn time before the light output reaches 0.25 Lux which is the equivalent to moonlight and enough to move forward at a slow pace.)
- Light distance is defined as the distance at which the light beam measures 0.25 lux.

charging

The world's first seamless headlamp experience.

On this fifth generation of our original running headlamp, we present a new kind of technology where the power is fully integrated. We call it Free Technology - a comfortable headlamp experience without distracting cords. No hassle - Just free the energy.

The hybrid battery case can carry either a rechargeable pack or AAA batteries. It has grip friendly surfaces and holds an integrated red rear safety light adding extra visibility. Trail Runner Free is lightweight and perfectly balanced, with smooth adjustments and a flat, soft textile extension cord that doesn't tangle.

Go for the FREE Ultra if you want to go for really long sessions. You get both a compact, rechargeable 4.0Ah battery and a Hybrid battery case.

FEATURES

- Free technology headband and connection system
- · Wide anti-slip headband
- SILVA Intelligent Light, combining long reach spot light and close flood light
- 400 lumen output
- Super lightweight, 117g / 155g
- Hybrid battery case
- · Red rear safety light built into hybrid battery case
- Flat, soft textile extension cord
- Water resistant; both headlamp and battery meet IPX5 standard
- Max mode indication
- 4.0Ah, rechargeable battery with 4 step battery indication

HEADLAMP BATTERIES

All Silva running and multi-activity headlamps are available with a range of batteries in different sizes, with various burn times and different attachment possibilities. All battery packs and battery cases are also sold separately. By adding more battery options to your headlamp set-up, you can find the right balance between burn time and weight for different activities and conditions.

All Silva rechargeable batteries have USB-C charging and a battery charge indicator. There are two SILVA battery cable connector types (one for running and one for multi-activity) so pay attention to which battery fits your headlamp! Silva have used the same battery connector designs since 2008 which means that you can use the new batteries on older Silva headlamps.

HEADLAMP BATTERY 10.5AH

ART. NO. 37999

10.5 Ah BATTERY FOR EXTENSIVE BURN TIME

By adding more battery options to your headlamp set-up, you can find the right balance between burn time and weight for different activities and conditions.

This rechargeable battery has USB-C charging and a battery level indicator. It has the Silva standard cable connector which means that it fits all Silva Multi activity headlamps.

This battery can be safely attached to to your bike frame or handlebars with the Silva battery Velcro strap.

FEATURES

- · 10.5 Ah long distance
- · Rechargeable (USB-C)
- Weight: 330 g
- · Charging time: 10 h
- SILVA Connection System
- · 5-step Battery level indicator

OPTIONAL ACCESSORIES

HEADLAMP BATTERY 7.0AH

ART. NO. 37998

7.0 Ah BATTERY - POWERFUL, YET SLIM

By adding more battery options to your headlamp set-up, you can find the right balance between burn time and weight for different activities and conditions.

This rechargeable battery has USB-C charging and a battery level indicator. It has the Silva standard cable connector which means that it fits all Silva Multi activity headlamps.

This battery can be safely attached to to your bike frame or handlebars with the Silva battery Velcro strap or to the headband with the headlamp battery holder.

FEATURES

- · 7.0 Ah powerful, yet slim
- · Rechargeable (USB-C)
- Weight: 235 g
- · Charging time: 8 h
- · SILVA Connection System
- 5-step Battery level indicator

OPTIONAL ACCESSORIES

Extension cable

holder 7.0

HEADLAMP BATTERY 3.5AH

ART. NO. 37997

3.5 Ah BATTERY - SLIM AND LIGHTWEIGHT

By adding more battery options to your headlamp set-up, you can find the right balance between burn time and weight for different activities and conditions.

This rechargeable battery has USB-C charging and a battery level indicator. It has the Silva standard cable connector which means that it fits all Silva Multi activity headlamps.

This battery can be safely attached to to your bike frame or handlebars with the Silva battery Velcro strap or to the headband with the headlamp battery holder.

FEATURES

- 3.5 Ah slim and lightweight
- · Rechargeable (USB-C)
- Weight: 129 g
- · Charging time: 4 h
- · SILVA Connection System
- 5-step Battery level indicator

FREE BATTERY CASE 3XAAA

ART. NO. 37841

By adding more battery options to your headlamp set-up, you can find the right balance between burn time and weight for different activities and conditions.

The Hybrid battery case can carry either the Silva rechargeable Hybrid battery pack or AAA batteries. The case has grip friendly surfaces and holds an integrated red rear safety light - adding extra visibility. The battery can be carried comfortably on the headband or, thanks to the extension cord, it can be kept warm in your pocket to save battery life.

Hybrid technology

FEATURES

- AAA sized
- · Hybrid technology
- · Fits Trail Runner headlamps
- · Integrated red safety light

OPTIONAL ACCESSORIES

Hybrid battery

BAR MOUNT EXCEED

ART. NO. 38006

BAR MOUNT FOR ATTACHING YOUR HEADLAMP TO YOUR BIKE

This is a robust and stable headlamp bar mount with an easy quick attachment function for the Exceed series. The bar mount enables you to use your headlamp as a bike light and it is designed to fit handlebars with a dimension between 22-35 mm. Once the bracket is in place, the headlamp can easily be slided in or out of the snap socket with just a click. Fits all headlamps in the Exceed, Trail Speed and Cross Trail series.

FEATURES

- · Robust construction for steady and safe attachment
- Attach to handlebars with dimension 22-35 mm.

COMPATIBILITY

- Exceed series
- · Trail Speed series
- · Cross Trail
- LR series

HEADLAMP HELMET BRACKET EXPLORE / MR

ART. NO. 38010

HELMET BRACKET FOR ATTACHING YOUR HEADLAMP TO YOUR HELMET

This is an updated version of the Helmet Bracket Explore. It is designed with several attachment points which makes it adapt to and fit most helmets. The bracket is easily attached with pre-mounted adhesive tape and is designed not to affect the protective characteristics of the helmet. Once the bracket is in place, the headlamp can easily be slided in or out of the snap socket with just a click. Fits all headlamps in the Explore/MR series

FEATURES

- · Robust construction for steady and safe attachment
- · Attached to helmet using adhesive 3M sticker (included)
- · Fits most helmets

COMPATIBILITY

- · Explore series
- MR series

3M sticker

BATTERY HOLDER 2.0 / 3.5

ART. NO. 38077

HEADLAMP BATTERY HOLDER KEEPS THE BATTERY IN PLACE

The headlamp battery holder keeps the battery in place and improves the comfort when you want to carry the battery on your head. You attach the battery holder to the headband and then easily slide in the battery.

This Headlamp battery holder is compatible with the Silva 2.0 Ah headlamp battery (38009) and the Silva 3.5 Ah headlamp battery (37997).

FEATURES

- · Robust construction for steady and safe attachment
- · Simple and flexible to use

BATTERY VELCRO STRAP

ART. NO. 38079

BATTERY VELCRO STRAP FOR BATTERY ATTACHMENT

The Velcro strap can be used to safely mount or attach Silva battery packs to your bike frame or handlebars, your headband or wherever you find it suitable to have the headlamp battery pack. The Velcro strap is compatible with all Silva rechargeable battery packs and all battery cases.

FEATURES

- · Velcro closing function
- · Attach to bike frame or handlebars

COMPATIBILITY

· All Silva rechargeable battery packs

HEADLAMP EXTENSION KIT

ART. NO. 38075

HEADLAMP EXTENSION KIT WITH CABLE AND CABLE GUIDE

The headlamp extension kit includes an extension cable and a rear cable guide. By connecting the headlamp battery with the extension cable, you can place the battery safely in your pocket or a backpack. By keeping the battey warm in your pocket or backpack, you will increase the battey time.

The cable guide is attached to the back of the headband or helmet and helps keep the headlamp cable in place.

FEATURES

- · Silva Connection system
- · Simple and flexible attachment to headband or helmet

COMPATIBILITY

· All Silva rechargeable battery packs using the Silva connection system

FREE 10X

ART. NO. 37781

The Free 10 series is designed for the Pulse lover or Adventure seeker and will support you, wherever you choose to go - whether you practice XC-skiing, mountain biking or running.

The 10L main compartment is made to hold a lot of gear, but can also be made really small and neat if you choose to go light-weight. The compartment size is easily adjusted with the glove friendly compression straps without taking the belt off.

Choose Free 10X if you need much packing volume and to stay hydrated during a long training session, ultra race or adventure. If you need even more packing volume, it is easy to detach the hydration reservoir, or you can choose our Free 10 that comes without one.

FEATURES

- · Adjustable packing volume (0-10L)
- Compression straps on main compartment
- Insulated hydration compartment (1.5L)
 Placement for reservoir. Outputs on 2 sides
- 1.5 L hydration reservoir included
 Detachable and washable
- Insulated hose
 Detachable and flexible
- Easy to adjust
 Pull waist straps forward to tighten

INCLUDED

- · Wide belt
- Distributes the weight evenly
- · Big buckle in front

- 4x gel attachment / strap holder
- · 1x elastic mesh, side pocket
- · 1x zippered, weatherproof, side pocket
- · Comfortable 3D mesh back with padding
- Low weight & comfortable fit 245g (belt), 200g (reservoir)
- Cable exit
 For headlamp battery
- Great visibility in darkness
 Reflective details
- Visibility light holder
 Fits SILVA Tyto lamp

RACE 4X

ART, NO. 37783

ICONS / IMAGES

Race 4 series is designed for the Pulse lover with the target set for the next level - whether you practice XC-skiing, mountain biking or running.

The 4L main compartment is kept small and stiff to keep the weight low but still leave room for your most necessary gear.

Choose Race 4X if need to keep the weight low, but still need to stay hydrated during longer races or high pulse training sessions. If you want to keep the weight even lower, it is easy to detach the hydration reservoir, or you can choose our Race 4 that comes without one.

FEATURES

- Optimized packing volume (4L)
 For your mos necessary gear
- Insulated hydration compartment (1.5L)
 Placement for reservoir. Outputs on 2 sides
- 1.5 L hydration reservoir included Detachable and washable
- Insulated hose
 Detachable and flexible
- Easy to adjust
 Pull waist straps forward to tighten

INCLUDED

- · Wide belt
- Distributes the weight evenly
- · Big buckle in front

- 4x gel attachment / strap holder
- · 1x elastic mesh, side pocket
- · 1x zippered, weatherproof, side pocket
- · Comfortable 3D mesh back with padding
- Low weight & comfortable fit 200g (belt), 200g (reservoir)
- Cable exit
 For headlamp battery
- Great visibility in darkness
 Reflective details
- Visibility light holder
 Fits SILVA Tyto lamp

FREE 10

ART. NO. 37828

ICONS / IMAGES

Lightweight Visibility Weather proof Packing Volume Hydration Compression

The Free 10 series is designed for the Pulse lover or Adventure seeker and will support you, wherever you choose to go - whether you practice XC-skiing, mountain biking or running.

The 10L main compartment is made to hold a lot of gear, but can also be made really small and neat if you choose to go lightweight. The compartment size is easily adjusted with the glove friendly compression straps without taking the belt off.

Choose **Free 10** if you need all the packing volume you can get during a long training session, ultra race or adventure, but still want the option to add a reservoir for hydration. If you want the same belt, but with the reservoir included — then choose our **Free 10X**.

FEATURES

- Adjustable packing volume (0-10L)
- . Compression straps on main compartment
- Insulated hydration compartment (1.5L)
 Placement for reservoir (not included)
 Outputs on 2 sides
- Easy to adjust
 Pull waist straps forward to tighten

INCLUDED

- Low weight & comfortable fit 245g
- Cable exit
 For headlamp battery
- Great visibility in darkness
 Reflective details
- Visibility light holder
 Fits SILVA Tyto lamp

FLOW 6X

ART, NO. 37782

ICONS / IMAGES

Flow 6X is designed for the XC-skiler, mountain biker or runner who needs to stay hydrated and wants somewhere to place their most necessary gear... and more.

The 6L main compartment is made in a lightweight mesh fabric that is expandable for an optimized packing volume.

The included hydration bottle (1.2L) has a curved design that follows the shape of your lower back. The insulated compartment keeps the fluid at the right temperature longer and makes the bottle easy to detach and machine wash.

Choose Flow 6X if you need to stay hydrated during your activity and have the time to pause and take off the belt to refill your energy levels.

FEATURES

- · Optimized packing volume (6L) Expandable mesh
- Insulated bottle compartment (1.2L) Placement for hydration bottle
- · 1.2 L hydration bottle included Ergonomically shaped Lid with strap - to prevent dropping it Detachable and machine washable BPA-free
- · Easy to adjust Pull waist straps forward to tighten

Wide belt

Distributes the weight evenly

· Big buckle in front

Easy to operate, even when wearing gloves

- 4x gel attachment / strap holder
- · 2x elastic mesh, side pockets
- Comfortable 3D mesh back with padding
- · Low weight & comfortable fit 200g (belt), 145g (bottle)
- · Cable exit

For headlamp battery

- · Great visibility in darkness Reflective details
- · Visibility light holder Fits SILVA Tyto lamp

RACE 4

ART, NO. 37820

ICONS / IMAGES

Race 4 series is designed for the Pulse lover with the target set for the next level - whether you practice XC-skiing, mountain biking or running.

The 4L main compartment is kept small and stiff to keep the weight low but still leave room for your most necessary gear.

Choose Race 4 if you really need to keep the weight low, but still want the option to add a reservoir for hydration - optimal for shorter sessions when every second/gram counts. If you want the same belt, but with the reservoir included - then choose our Race 4X.

FEATURES

- · Optimized packing volume (4L) For your mos necessary gear
- Insulated hydration compartment (1.5L) Placement for reservoir (not included) Outputs on 2 sides
- . Easy to adjust Pull waist straps forward to tighten

INCLUDED

· Wide belt

Distributes the weight evenly

· Big buckle in front

- · 4x gel attachment / strap holder
- · 1x elastic mesh, side pocket
- · 1x zippered, weatherproof, side pocket
- · Comfortable 3D mesh back with padding
- . Low weight & comfortable fit 200g
- · Cable exit For headlamp battery
- · Great visibility in darkness Reflective details
- · Visibility light holder Fits SILVA Tyto lamp

STRIVE BELT

ART, NO. 337910 (BLACK), 37911 (TURQUOISE)

ICONS / IMAGES

This lightweight, flexible and smart run belt is comfort combined with safety. The belt is elastic and easy to adjust with breathable mesh backside for comfortable fit. Whilst being small and flexible, it still allows you to carry more than what the eye can see.

FEATURES

- . Low weight and comfortable fit
- · Breathable 3D mesh fabric for optimal ventilation and sweat transportation
- · Reflective details for great visibility in darkness
- 1 x expandable compartment with weatherproof interior, fits phones and gloves
- 1 x easy access mesh pocket perfect for bars or gels
- . 1 x zipped mesh pocket with key hook inside
- . Earphone cable entry that is water protected.
- · One size fit elastic adjustment
- · Visibility light holder
- · Washable when holders and bottles are removed

UPDATES

- · New colours
- · Larger pocket fits larger phones

TERRADRY BAGS

TERRA DRY BAGS

TERRA DRY BAGS

ART NO 38172, 38173, 38174, 38175, 38176

Terra dry bags are made of lightweight, durable and 100% recycled material. To make these bags as environmentally friendly as possible, we use recycled PET material and chose a design with less colors, reducing the dyeing process to a minimum. The results is a rugged, waterproof and high-quality dry bag you can rely on.

FEATURES

- 100% recycled PET (polyester)
- Non-dyed fabric
- · Outlined printing
- Lightweight and Durable
 70 denier polyester fabric
- Waterproof rolltop Easy closure system
- Packing volume
 3, 6, 12, 24, 36 liter
- Color coded sizes
 Makes it easier to identify/separate luggage
- Winter use Flexible in temperatures down to -20C

ENVIROMENTAL FACTS

- Carbon footprint of RPET is 75% lower than producing new PET*
- RPET requires 67% less energy during production*
- RPET requires 86% less water uring production*
- Carbon footprint of non-dyed is 64% lower
- Energy consumption is 4% lower
- Dyeing of PET requires 30-50 liters of water per 1kg

^{*} Waste2wear, 75% lower CO2

RPET SERIES

Our R-PET dry bags are made of lightweight, durable and 100% recycled material. We chose to design these dry bags in recycled PET to make them as environmentally friendly as possible but still rugged, waterproof and reliable - everything you can expect from a high-quality dry bag.

THE DESIGN STORY BEHIND: RPET DRY BAGS

WHAT

• The first Dry Bags on the market made entirely out of recycled polyester.

WHY

 Designed to be as environmentally friendly as possible but still rugged, waterproof and reliable.

WHO

 Made for outdoor enthusiasts who care for the environment and need to keep gear dry and organized.

WHEN

 Whether you are going camping, kayaking or sailing - these dry bags will protect your gear.

KEY FUNCTIONS / KEY DESIGN ELEMENTS

• Environmentally friendly, waterproof, lightweight.

RPET DRY BAGS

ART. NO. 37769 (3L), 37770 (6L), 37771 (12L), 37772 (24L), 37773 (36L)

ICONS / IMAGES

Our R-PET dry bags are made of lightweight, durable and 100% recycled material.

We choose to design these dry bags in recycled PET to make them as environmentally friendly as possible but still rugged, waterproof and reliable - everything you can expect from a high-quality dry bag.

ORIENTEERING COMPASS RANGE

UNMATCHED NEEDLE STABILITY.

Compasses are our heritage and Silva compasses have long been the first choice among orienteers around the world.

With the orienteering compass range from Silva, it is easier to stay ahead of competition. Developed with almost 90 years of experience and in collaboration with the best in the sport - it provides an unmatched needle stability when you are on the move to complete your mission - being first to the next checkpoint.

ARC JET SERIES

The high-performance Arc Jet thumb compasses are perfect for the orienteer, adventure race athlete, and you who needs a fast, stable needle and clear map visibility for quick navigation while running.

The Silva Jet 2.0 needle provides world class performance in needle speed and settling time and it offers outstanding reliability and stability.

The thumb baseplate has a cut-out to provide perfect contact between thumb and map, while the innovative Arc wing design gives extra support and stability. The baseplate and the capsule are made of highly durable material to withstand tough handling and the material and design provides even more transparency than its predecessor — thus increasing map visibility.

The improved thumb band is easy to adjust and makes the compass fit comfortably on your hand.

THE DESIGN STORY BEHIND: ARC JET COMPASSES

WHAT

• A series of high performance orienteering thumb compasses.

WHY

• We want to offer the best compasses on the market.

WHO

 For the orienteer, adventure race athlete, and you who needs a fast, stable needle and clear map visibility for quick navigation while running.

WHEN

· For high speed navigation during racing/training.

KEY FUNCTIONS / KEY DESIGN ELEMENTS

- Silva Jet (2.0) needle
- world class performance and unmatched stability.
- Arc wing design gives extra support and stability.
- Thumb contact with the map / detachable thumb plate.
- · Lots of transparency.

ARC JET 360

ART. NO. 37893 (LEFT), 37894 (RIGHT)

ICONS / IMAGES

This is your compass if you are looking for a high-performance thumb compass with a rotatable housing. With this feature, you can use the Silva 1-2-3 system for easy navigation. This compass has all the high-end qualities that you need for fast navigation while running.

FEATURES

- Silva Jet 2.0 needle provides world class performance in needle speed and settling time and it offers outstanding reliability and stability
- · Arc wing design gives extra support and stability.
- . The baseplate design allows thumb contact with the map.
- · Attachable thumb plate for those who prefer the more classic thumb grip. Simply slide it on/off to the baseplate with a simple click.
- . Two thumb bands included soft and firm
- · Scale stickers that can be attached to the baseplate: 1:15 k, 1:10 k, 1:7.5 k, 1:4 k
- Friction element for improved friction against the map
- · Robust material that withstands tough treatment and conditions
- Rotatable housing use with SILVA 1-2-3 System®
- · Tested and approved by Tove Alexandersson

ART, NO. LEFT: 37899 (MN), 38021 (ME), 38022 (MS) // RIGHT: 37900 (MN), 38023 (ME), 38024 (MS)

ICONS / IMAGES

This compact version of the original Arc Jet S compass is perfect for smaller hands. The compass comes with the same exclusive Silva Jet 2.0 high performance needle as the Arc Jet S. It has the same capsule size with the Spectra speed dial graphics as the original, but with a smaller thumb plate. The Spectra pattern consists of reference marks and numbers, designed to simplify your orienteering.

For more detailed map reading, you can get the Arc Zoom C magnifier as an optional accessory. The Zoom is easily attached to the baseplate of your thumb compass. Due to its functional design it becomes well integrated with the compass.

FEATURES

- · Silva Jet 2.0 needle provides world class performance in needle speed and settling time and it offers outstanding reliability and stability
- Arc wing design gives extra support and stability.
- . The baseplate design allows thumb contact with the map.
- · Smaller capsule
- Smaller baseplate
- · Friction element for improved friction against the map
- · Robust material that withstands tough treatment and conditions
- · Spectra speed dial graphics

ARC JET C

ART. NO. 37901 (LEFT), 37902 (RIGHT)

ICONS / IMAGES

Jet 2.

This **compact** version of the original Arc Jet compass is perfect for smaller hands. The compass comes with the same exclusive Silva Jet 2.0 high performance needle as the Arc Jet. It has the same capsule size and quality as the original, but with a smaller thumb plate. It has a **clean**, **fixed capsule** without distractions which provide lots of transparency and increase the map visibility.

For more detailed map reading, you can get the Arc Zoom C magnifier as an optional accessory. The Zoom is easily attached to the baseplate of your thumb compass. Due to its functional design it becomes well integrated with the compass.

FEATURES

- Silva Jet 2.0 needle provides world class performance in needle speed and settling time and it offers outstanding reliability and stability
- Arc wing design gives extra support and stability.
- · The baseplate design allows thumb contact with the map.
- · Smaller capsule
- Smaller baseplate
- · Friction element for improved friction against the map
- Robust material that withstands tough treatment and conditions

ARC ZOOM / ARC ZOOM C

ART. NO. 37909 (ZOOM), 37903 (ZOOM C)

ICONS / IMAGES

Magnifie

A magnifier that is compatible with our Arc Jet series. The Zoom is easily attached to the baseplate and due to its functional design it becomes well integrated with the compass.

With this you won't miss the details on the map, thus increasing your chances of a great performance.

Comes in two sizes:

Zoom for Arc Jet thumb compasses **Zoom C** for Arc Jet C thumb compasses

FEATURES

- . Magnifier improves the detail vision on the map
- . Compatibility; it fits both left and right handed thumb compasses
- · Functional design that is well integrated with the compass
- · User level: Advanced

ARC JET OMC

ART. NO. 37904

ICONS / IMAGES

Jet 2.0

Spectro speed d This is the **wrist compass** in the new Arc Jet series. It has the Silva Jet 2.0 high performance needle with unmatched needle stability and the **Spectra speed dial** graphics on the capsule

The OMC is attached to the wrist, which means you have both hands free while orienteering. Perfect if you want to eat or drink during a race. Silva wrist compasses are appreciated by adventure racers around the world since it provides the same speed and performance as thumb compasses but enable navigation also while biking, kayaking, etc.

FEATURES

- Silva Jet 2.0 needle provides world class performance in needle speed and settling time and it offers outstanding reliability and stability
- · Robust material that withstands tough treatment and conditions
- · Wrist attached makes it perfect for map reading instead of exact bearing
- · Spectra speed dial graphics

Wrist strap

BEGIN 2

ART, NO. MN 37905

ICONS / IMAGES

The Begin 2 wrist compass is the perfect **entry-level** compass for children. It is small and designed to fit perfectly on a child's hand. Thanks to the wrist band, both hands are free which makes it easier to hold the map and focus on the direction.

The compass has a robust, rubber housing which makes it withstand even the toughest treatment and conditions. The needle is made of finest Swedish steel with high quality magnetic features.

FEATURES

- Robust material with rubber housing to withstand tough treatment and conditions
- · North pointer for easy and fast direction finding
- $\bullet \ \ \, \text{The needle is made from finest Swedish steel with high quality magnetic features} \\$
- · Wrist band; minimum risk of losing compass during run
- · User level: Basic/First-timer

SPIKE JET SERIES

The high-performance Spike Jet baseplate compasses are perfect for the orienteer, adventure race athlete, and you who needs a fast, stable needle and clear map visibility for quick navigation while running, but still prefers the traditional feeling of a robust compass that is held in the hand.

The Silva Jet 2.0 needle provides world class performance in needle speed and settling time, and it offers outstanding reliability and stability.

The baseplate is curved-up at the back end to give a better feeling in the hand. The plate is made of highly durable material to withstand tough conditions and provide lots of transparency for a clear view of the map.

The Spike Jet series comes with a comfortable and adjustable wrist strap to secure that you do not lose the compass when you are out to spike the next checkpoint.

THE DESIGN STORY BEHIND: SPIKE JET COMPASSES

WHAT

• A series of high performance orienteering baseplate compasses.

WHY

• We want to offer the best compasses on the market.

WHO

 For the orienteer, adventure race athlete, and you who needs a fast, stable needle and clear map visibility for quick navigation while running, but still prefers the traditional feeling of a robust compass that is held in the hand.

WHEN

· For high speed navigation during racing/training.

KEY FUNCTIONS / KEY DESIGN ELEMENTS

- world class performance and unmatched stability.
- Turnable housing.
- Measuring scales
- Lots of transparency.

SPIKE JET CLASSIC

ART, NO. MN 37906

ICONS / IMAGES

graduation

The Spike Jet Classic comes with a rotatable housing with 360° graduation markings, extended orienteering lines and a grip friendly surface.

The baseplate has a detachable scale slide at the tip that helps you measure the exact distance between two places on the map. This way you can more easily plan your race.

The stencil holes for star and control markings are great when you want to create your own orienteering race.

FEATURES

- . Silva Jet 2.0 needle provides world class performance in needle speed and settling time and it offers outstanding reliability and stability
- Rotatable housing with 360° markings and N,E,W,S markings
- . Three separate scale sliders that can be attached to the baseplate: 1:40 k, 1:7.5 k, 1:10 k, 1:15 k, 1:3 k, 1:4 k
- Comfortable and adjustable wrist strap
- · Rubber feet for improved friction against the map
- · Stencil holes
- · Robust material that withstands tough treatment and conditions

SPIKE JET ZOOM

ART. NO. 37907 (MN), 38025 (ME), 38026 (MS)

ICONS / IMAGES

REFLECTIVE MARKER

ART. NO. 55000-301 (30X30), 55000-151 (15X15), 55000-051 (6X6)

ICONS / IMAGES

Our reflective orienteering markers can be used both day and night. The reflective print makes it an ideal marker to use during night orienteering, thus you don't need to have "double sets".

FEATURES

- · Reflective marker for visibility during night
- · IOF standard size; can be used all over the world
- · Available in 3 different sizes; 30x30cm, 15x15cm and 6x6cm
- · Attached with lanyard

UPDATES

 $\tilde{}$

70P

ART. NO. MN 34990-9011, ME 34990-9013, MS 34990-9015

ICONS / IMAGES

A bulkhead mount compass designed for yachtsmen that demand absolute accuracy and a steady card in all conditions. Can be mounted at most angles and is suitable for smaller boats due to its compact size (70 mm).

FEATURES

- · Double scales; can be read from side and above
- . Main steering scale on the horizontal part and direct reading on the vertical edge
- · Curved rubber lines enables swift and accurate reading without parallax errors
- · Compact design makes it perfect for smaller boats
- · Easy to install in smaller spaces
- · Steady card; readable in rough seas
- · Can be used in any weather
- · Universal mounting: Bulkhead / flush mount

UPDATES

-

INCLUDED

Mounting screws, mounting template

C58

ART. NO. MN 35730-0751, MS 35730-0755

ICONS / IMAGES

A bracket mounted steering compass designed for movement, fitted with a detachable bracket. It can be mounted on almost any vehicle, such as power boats and in almost any direction - horizontally, vertically or up-side-down.

FEATURES

- · Compact design, suitable for smaller boats
- 12V integrated illumination makes it suitable for night navigation
- · Flexible mounting options; adapts to the space in your boat
- Built-in deviation compensator; lets you adjust it (up to $\pm 40^{\circ}$) if interfered by another magnetic field
- · Fits most boats
- · Robust and durable to endure tough treatment and conditions
- · Easily detached from bracket (bring along when leaving the boat)

UPDATES

INCLUDED

· Bracket, compensator adjuster, mounting kit

58 KAYAK

ART. NO. MN 36528-0751, MS 36528-0755

ICONS / IMAGES

The kayak's best friend. For the serious kayak paddlers there is no better choice but the 58 Kayak compass. It's small, waterproof, lightweight and has a unique attachment solution for kayaks.

FEATURES

- . Small, lightweight and compact; won't weigh down the kayak
- Rubber straps with clips for steady mounting will stay on even in rough conditions
- Waterproof
- · Scratch resistant glass
- · Kayak adapted; it's perfect for the activity
- · Robust and durable to endure tough treatment and conditions

UPDATES

-

INCLUDED

Attachment straps

CLINOMETER

ART. NO. 35188-901

ICONS / IMAGES

The popular clinometer for all types of vehicles. With two scales, one $\pm 35^{\circ}$ and a fine tuning scale $\pm 5^{\circ}$. Perfect for sail boats, power boats, but it is also a perfect working instrument for other applications such as making sure that different equipment/ vehicles sits "level" or at a wished angle.

FEATURES

- . User friendly interface; focus on your task instead of complex instruments
- Waterproof IPX8
- Double scales: ±35° & ± 5°
- · Robust and very durable material to withstand tough treatment and conditions

ETERNA SERIES

A series of high quality binoculars with marine-specific functionality and design. Rugged, robust and of course waterproof - perfect in rough seas.

THE DESIGN STORY BEHIND: ETERNA BINOCULARS

WHAT

 A series of high quality binoculars with marine-specific functionality and design.

WHY

• We wanted to provide a series of binoculars that are specifically designed for marine use: - waterproof, fog proof, floatable, fixed focus, high-viz colour, 7x magnification and a compass (Eterna Navigator 3).

WHO

• For all high demanding boat owners and yachtsmen.

WHEN

- During marine navigation find/identify sea marks/islands. Take bearings.
- During sail race check the competition and compare your performance.
- Identify other boats and ships.
- · Search and rescue.

KEY FUNCTIONS / KEY DESIGN ELEMENTS

• 7x50, Fixed focus, water proof, marine specific design.

ETERNA NAVIGATOR 3

ICONS / IMAGES

Magnification Lens diameter Field of view Waterproof Nitrogen Weight: 1150g

The waterproof Eterna Navigator with built-in compass. With porro-prism design and extensive light throughput, these binoculars are intended primarily for marine use.

A key feature is the fixed focus - after a one-off adjustment for your individual eyesight, the binoculars offer full focus on all objects from 7 meters onwards and no manual focusing is needed. This is perfect in rough seas or when searching for objects on the surface. The binoculars are also rugged, robust, nitrogen filled and 100% waterproof. And if you happen to drop the binoculars in the water, it floats. The Eterna Navigator has a built-in compass for navigation.

FEATURES

- Battery illuminated compass (MN balanced)
- · Waterproof Nitrogen gas filled
- · Fixed focus After initial adjustment, it needs no further manual adjustment
- · Will float even without neck strap!
- Very good night vision Exit pupil diameter: 7.1mm
- Twist-up Eye cups Extended eye relief for wearers of glasses
- Minimum focus distance: 7m
- Protective cover in signal yellow plastic (worldclass for marine binoculars)
